Ok, then we already have that in process.

I understand your interest in getting information asap, but please be aware that we have a huge number of similar inquiries and similar priorities. We are working as hard as possible to be responsive, and I will try to facilitate responses.

Thanks,

Carolyn

current and potential future enforcement actions for the Site.

This was mentioned on phone call yesterday and is what we referred to in our followup note.

Thank you Carolyn. There is a confidential enforcement addendum to this memo, which was part of our request. I understand you are still working to find documents, but want to be sure part of that production will include this enforcement memo.

We expect this can be delivered based on current requests from authorizing Committees, but if you believe you need a formal request we'd appreciate knowing sooner than later...

Peter
